GUARANTEES

The following guarantee applies to all detachable socket wrenches, open end wrenches, ratchets, socket handles and parts as well as pliers or other tools which are now being manufactured or may be later manufactured under the Code of Fair Competition For The Wrench Industry:

Pursuant to industry code all express guarantees are withdrawn and are limited to defects in workmanship and material. No claims will be allowed until after shipment is received at factory, shipping charges prepaid, and determination by us of defect.

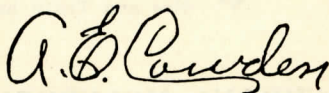

SPECIAL TOOL GUARANTEE

All Truth Special Tools still carry the same guarantee as they have in the past.

THE TRUTH GUARANTEE

We will replace or recondition any defective Special Tool.

Any unsatisfactory tool may be applied as credit toward the purchase of other items in our line provided it is returned to the factory within sixty days from date of purchase.

President.

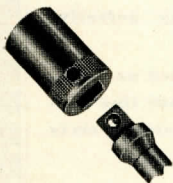

SAME DAY SERVICE!

All orders for Truth Tools are shipped the same day received. If in need of any tools pictured in this catalogue it is not necessary to wait for a salesman to call. Tear out one of the convenient mailing cards placed in the front and rear of this book, place your order on it along with your return address and you will receive immediate attention. Your salesman will receive credit.

Eight Reasons why Smart Buyers are changing to Truth Sockets!

The big reason why Truth Sockets have gained so rapidly in popularity the last few years is easy to find. Socket users found that they could be relied upon to handle the toughest jobs! This year we are pleased to announce a complete and new line of all styles of sockets as well as handles and parts. You need only to try them to be thoroughly pleased.

1. THE "LOCK-TITE" FEATURE

All Truth "Strait-Wal" and "Rite-Grip" Junior Sockets are now equipped with this simple device which causes them to fit tightly on handles. If you do not wish to make use of the feature just turn the socket so that the ball in the handle will not slip into the "Lock-Tite" hole. Truth Sockets will fit other standard handles and Truth handles fit other sockets.

2. CHROME MOLYBDENUM STEEL

Truth "Strait-Wal" and "Rite-Grip" Junior Sockets are now being made from this fine steel. Each socket is tempered correctly and you will be surprised with their unusual strength and wear-resisting qualities. If it's a Truth Socket you are using you can pull with confidence.

3. HANDSOME CADMIUM PLATING

All Truth Sockets are not only made right on the inside but are now beautifully finished on the outside with rust-proof Cadmium Plate.

2 All prices subject to change without notice.

SPECIAL GARAGE TOOLS

MANKATO MINNESOTA

4. ACCURATE BROACHINGS

Every Truth Socket will correctly fit standard sized nuts and cap screws. A correct fit is important because it does away with excessive wear and breakage.

5. FREE REPLACEMENT

Any defective Truth Socket will be replaced free of charge. Read our complete guarantee on page 1.

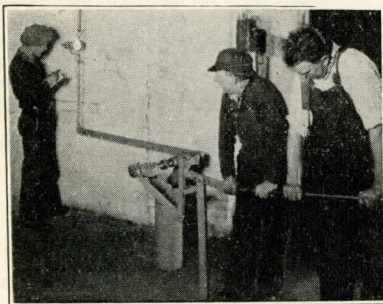

6. EXTRA THIN WALLS

Truth Sockets this year are thinner than ever before. Compare their thinness and strength to other ordinary sockets you have used.

7. REASONABLY PRICED

Truth Sockets are the cheapest to use in the long run. They offer you more strength per penny.

8. REMARKABLY STRONG!

We have designed, in our Research Department, a socket testing machine which cannot lie. The actual pounds pressure that it takes to break a Truth Socket is shown on the dial in the upper left-hand corner of the picture. The tester has enabled us to check our tempering methods, decide on the most suitable steels, and test sockets of Truth manufacture against other brands. A $\frac{3}{4}$ -inch Truth "Strait-Wal" Socket is being

tested. With a wall thickness of only $\frac{1}{16}$ -inch through its thinnest point it stood a 300-lb. pull without breaking!

NO. 11 FLEX HANDLE SETS

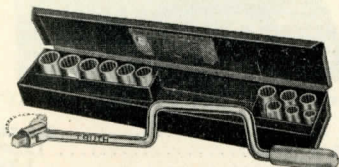

1/2" Square Handle Openings.
 The No. 11 set is another very popular moderate priced assortment. The set contains the 6 most widely used sockets and the 11" Flex Handle and Tee Bar which has always been a popular wrench.

- 6 Sockets—7/16", 1/2", 9/16", 5/8", 11/16" and 3/4".
- Set No. 11R—With Truth "Rite-Grip" Sockets, Box and Flex Handle and Tee Bar **\$4.95**
- Set No. 11S—With "Strait-Wal" Sockets, Box and 11" Flex Handle and Tee Bar..... **5.50**
- Box, if bought separately .. **.75**

NO. 16 FLEX SPEEDER SETS

1/2" Handle Openings.

The above set is a popular one and the box is designed to hold additional parts should you wish to purchase them later.

- Set No. 16R—Contains 12 "Rite-Grip" style sockets with 16" Flex Speed Handle **\$7.45**
- Set No. 16S—Contains 12 "Strait-Wal" Sockets with "Lock-Tite" holes and Flex Speeder..... **8.50**
- Set No. 16 Special—Contains 12 "Rite-Grip" Sockets and the 16" Speeder Handle with the Truth 27-Point Ratchet and the R-9 5" Extension which is shown on page 5 **11.70**

If box is desired, add \$1.00 to the above price.

TRUTH AIRMAN SET

1/2" Square Handle Openings

This is a very complete set of standard sockets, handles and parts. The set has twenty pieces and is contained in a heavy metal box. The set contains the following items:

- 11—Truth "Rite-Grip" Sockets, 7/16" to 15/16" inclusive.
 - 1—Drag Link Socket.
 - 1—Universal Joint.
 - 1—10" Extension.
 - 1—5" Extension.
 - 1—Sliding Tee Handle.
 - 1—14" Speed Handle.
 - 1—18" Speed Handle.
 - 1—15" Flex Handle and Tee Bar.
 - 1—Truth 27-Point Ratchet and Plug.
 - 1—Heavy Metal Box.
- Complete Set, with box as shown..... **\$19.95**
 Complete Set, without box **18.45**
 Metal box only **2.50**

Note—If 11 Truth "Strait-Wal" Sockets are wanted instead of the 11 "Rite-Grip" style sockets, add \$1.00 to the price of the set.

MANKATO MINNESOTA

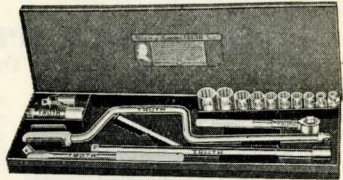

BETTER "RITE-GRIP" JUNIOR SOCKETS

The new Truth "Rite-Grip" Sockets now give even better service than they have in the past. Junior Sockets, Handles, Extensions, etc., are all equipped with the "Lock-Tite" feature and although the sockets are very thin, they stand up under hard jobs because of the Chrome Molybdenum Steel used in them. Each part is cadmium plated. This is a complete assortment from which you may pick to fill your small socket needs.

NO. 20 JUNIOR "RITE-GRIP" SOCKET SET

3/4" Square Handle Openings
"Lock-Tite" Feature.
Chrome Molybdenum Steel

This set contains 16 items as follows: Seven 12-point sockets, sizes 3/8", 7/16", 1/2", 9/16", 5/8", 11/16" and 3/4"; three 8-point sockets, 1/4", 5/16" and 3/8"; one 8 1/2" Flex Handle and Tee Bar, one 27-point Junior Ratchet and Plug, one Universal Joint, one 3" Extension, one 12" Extension and one 16" Speeder.

Price, as shown with metal box.....**\$13.50**
 Price, as shown without box **12.50**
 Metal box only **1.35**

H.D.H. 33	Ratchet	7.50

Truth Heavy Duty Sockets are hot broached. An undercut groove is placed in the square opening of each socket so that the balls in handles or parts will snap into that groove and give the user assurance that the socket will not fall off. They are beautifully designed and have no equal for strength and utility. The Heavy Duty Ratchet No. H. D. H. 33 has twenty-seven points which gives a good hold with a slight movement of the handle. No Truth Heavy Duty Ratchet has ever been broken.

TRUTH "FLEXLITE" SCREW DRIVERS

NON-SHOCK!

Tough, Twist-Proof Blades; Handles of Shock-Proof Unbreakable Material. The Inevitable Choice of Every Mechanic Who Puts Quality First.

IT PAYS TO USE GOOD SCREW DRIVERS

Truth "Flexlite" Screw Drivers are a source of pride to every mechanic who owns one. Screw drivers may be purchased at any price, but for those who put quality first we offer the above. Blades are made from special gear steel, carefully tempered, leaving them tough, springy and twist-proof. You may pound the handles with the heaviest hammer still they will not break, and best of all, they are shock-proof and so guaranteed. Transparent amber colored handles combine real tool beauty with genuine usefulness. **Lengths are over-all.**

TRUTH CHISEL AND PUNCH SET

The price of \$5.85 for a complete set, in kits of six chisels and six punches is the best purchase ever offered for chisels and punches of Truth quality. They are forged by hand and tempered from edge to head throughout. The head will not batter up as do cheaper tools, yet they do not crack off to endanger hands or eyes. May be had in beautiful black finish with polished blades and taper as shown above or polished and cadmium plated over-all at a higher price. Sets may be purchased separately as can single sizes.

Truth Chisels are made down to an edge. They cut.

TRUTH INTERCHANGEABLE PIN PUNCHES

A
TRUTH
IDEA

The above Pin Punch Sets will save you money. Instead of having to buy a complete new Pin Punch when a bit breaks, all you need do is to purchase extra bits which are very low in price. The bits are made from special drill rod steel and are correctly tempered to give service. They lock tightly in each handle and the handles themselves will stand years of hard usage. Because of their very low price, the bits for the above tools are not guaranteed.

TRUTH TOOL COMPANY

MANKATO MINNESOTA

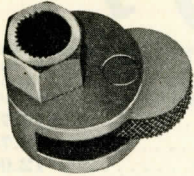

STUD BOLT WRENCHES

The finest wrench ever made for removing motor studs of all sizes. Positive grip; does not slip nor mark up studs. Two sizes.

Name	Length	Capacity	Price
S.B.W. No. 1	11"	1/8" to 1/2"	\$1.75
S.B.W. No. 2	11"	1/8" to 5/8"	2.00

STUD BOLT ATTACHMENTS

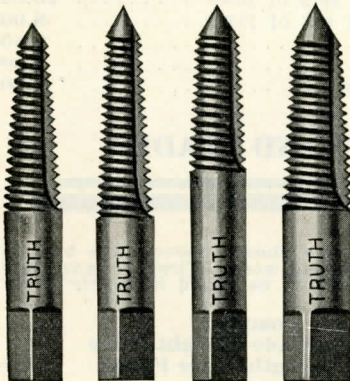

These attachments are easy to use in tight places. If desired, an Extension, a Socket and a Ratchet can be used or an Open End Wrench. The eccentric wheel is deeply knurled and the hole through which the Stud Bolt passes is also broached to give an extra grip.

Name	Capacity	Price
S.B.A. No. 4	1/8" to 1/2"	\$1.95
S.B.A. No. 5	1/8" to 5/8"	2.15

SURE-OUTS

Sure-Outs will give entire satisfaction when used with oil and the correct drill size used. The drill should be as large as stud will permit yet not so large that threads on the Sure-Out are in danger of locking into the thread in the block from which the broken stud is being removed.

No.	Use Drill	Price
1.	Size 5/32".....	\$0.50
2.	Size 3/16".....	.50
3.	Size 1/4".....	.50
4.	Size 11/32".....	.50
Set of four in kit		2.00

NU-TRIX THREAD RESTORER

Nu-Trix is made to overlap several threads. A few strokes and the battered thread is as good as new. Eight U.S.S. and S.A.E. thread sizes on each tool: 11, 12, 13, 14, 16, 18, 20 and 24 threads to the inch.

This tool must be made unusually hard and is therefore not guaranteed to be replaced if broken.

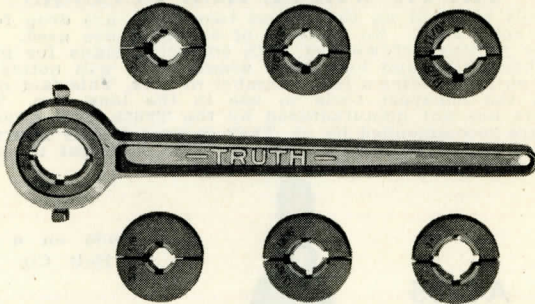

Price	\$1.65

TRUTH WHEEL HUB PULLERS

Tools pictured on these next two pages are drop forged from solid steel. No castings of any kind are used. With heavy pulling screws and with correct designs for proper fit, they will stand long hard usage. You will notice that each puller handles a large number of cars. This fact makes them the cheapest tools to use in the long run. These pullers are not manufactured by the Truth Tool Company but are recommended by us. They carry a 90-day guarantee against defective material and workmanship but the regular Truth guarantee does not apply.

**TRUTH HEAVY
DUTY DRIVE
SHAFT AND
AXLE PULLER**

This heavy, well made tool is used to pull threaded cam shafts, drive shafts and axles, no matter how badly the spline is twisted. It has two adjustments as to length and the pulling block is slotted so that the jaws may be opened or closed. This puller should be on the tool board in every shop. Burrs are furnished to fit practically all axle sizes as well as drive shafts. Several other attachments are also made to be used with this puller as is shown on following pages.

Price. Complete with 8 size burrs, including the special $\frac{13}{16}$ " Chevrolet size as well as the $\frac{3}{4}$ " x 20 thread size for the Terraplane.....\$11.00

Price. With any seven size burrs..... 10.50

Price. With any four size burrs..... 10.00

Sizes of burrs made are as follows: $\frac{5}{8}$ ", $\frac{3}{4}$ ", $\frac{13}{16}$ ", $\frac{7}{8}$ ", 1", $1\frac{1}{8}$ ", $1\frac{1}{4}$ ", $\frac{3}{4}$ " x 20 thread.

Price. Burrs separately:

Any burr above 1" in size. Each.....\$0.60

Any burr up to and including 1". Each..... .50

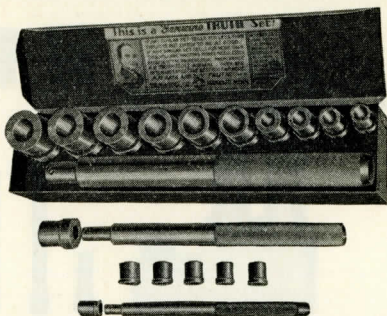

Note: Many other tools are designed to be used with the puller above. See the Chevrolet car and truck axle housing bearing puller, Chrysler Race pullers, etc.

SPECIAL GAR AGE TOOLS

MANKATO MINNESOTA

UNIVERSAL BUSHING REMOVER SETS

Here is a complete set of tools that should be in every shop. The small collars and mandrels handle distributor bushings, starter bushings, generator bushings, etc., while the larger sizes with their respective mandrels handle practically every size bushing to be found on present-day cars. The new thin bushings are hard to remove and to put back in again. The bushing collars are tempered and are correct in size. The mandrels are made from fine tool steel and will stand a lot of hammering.

Collar No. 10—	$\frac{1}{2}$ " x $\frac{5}{8}$ "	Bushings	\$0.25

 MANKATO MINNESOTA

UNIVERSAL RING GROOVE CLEANER

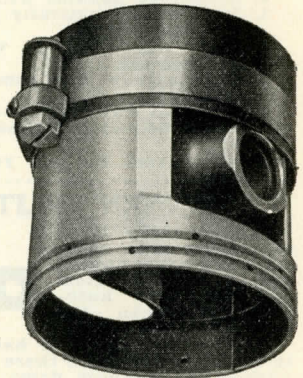

This new and novel Ring Groove Cleaner has a cutting wheel containing the following sizes of bits: 3/32", 1/8", 5/32" and 3/16". Because the tool is held in the operator's hand there is no spring tension and the tool will therefore cut out carbon without removing any piston material or making the ring grooves deeper. It is much easier to use in cleaning oil ring grooves because it will work between the oil holes without as much trouble as the older type. Its shape is such that it will work on practically all

pistons, large or small. Because of their position the cutting edges are easy to sharpen.
 Price **\$1.00**

D & H RING COMPRESSOR

The D & H Ring Compressor may be used when inserting pistons either from top or bottom. Made in two sizes. Number 1 handles pistons from 2½" to 4½". No. 2 size fits pistons 4" to 7".

- No. 1 D & H Ring Compressor **\$1.65**
- No. 2 D & H Ring Compressor **2.65**

MAGIC FINGERS

SUNNEN HEAVY DUTY VALVE LIFTER

A—The Sunnen Heavy Duty Valve Lifter was designed primarily for late motors with every heavy springs and works better on small motors than the average small valve lifter. It works exceptionally well on Continental motors where block casting hides valve assembly and on motors requiring extra high lift.

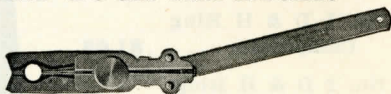

B—

1. Twice as strong as the average lifter of this type. More leverage.
2. Longer so handles will extend out beyond manifold.
3. Jaws raise practically parallel. Will not wedge spring on valve stem.
4. Fully adjustable to work on all motors (including Continental).
5. Very narrow and compact. Lots of room to remove locks.
6. Locks at any height—no ratchet to wear out or slip.
7. Extra height adjustment gives you an extra inch of lift.
8. Guaranteed for one year against breakage.

Price\$2.25

SUNNEN SPLIT LOCK REPLACER

Can be easily loaded. Jaws open automatically when pushed against valve stem and also open automatically when the replacer is pulled out.

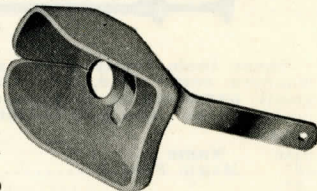

Each of the locks is held separately and independently in each jaw and stays there until the valve retaining washer pushes the replacer down off the locks.

NOTE: In case the locks cannot be nested properly on valve stem, the replacer can be withdrawn and locks will remain firmly in each jaw.

Price\$1.50

SUNNEN SPLIT LOCK CATCHER

1. Will work on all valves on any motor regardless of space or obstructions because it is flexible.
2. Can be inserted and removed very easily. Locks remain in catcher.
3. Made of grease-proof rubber with steel handle and bottom.

Price\$0.70

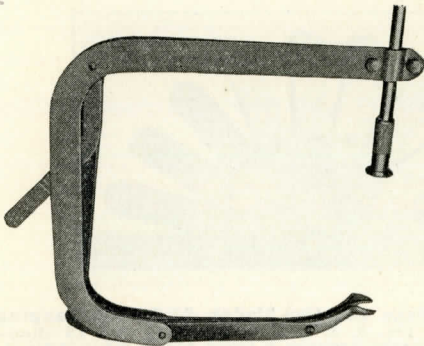

Price, SUNNEN LIFTER SET (3 tools listed above)....\$4.45

SPECIAL BUICK TOOLS

**Buick Timing
Gear Puller**

**Buick Pump Shaft
Gear Puller**

**Buick Crank Shaft
Gear Puller**

The above tools are designed to pull all timing gears, pump shaft gears and crank shaft gears on Buick 8's.

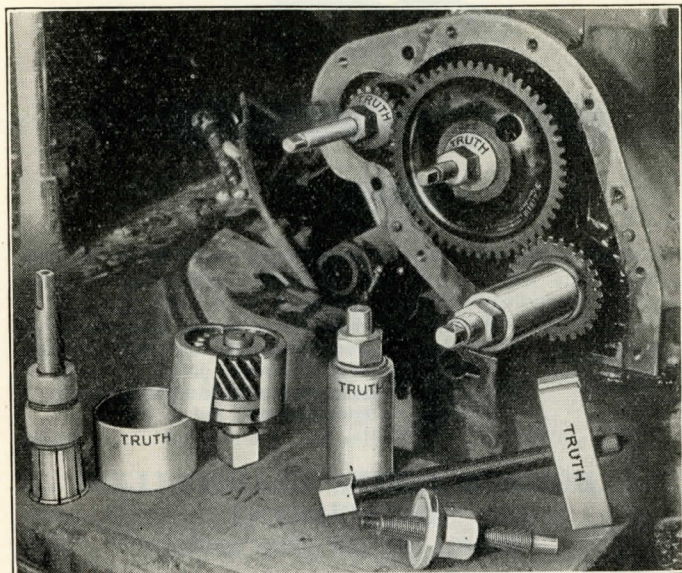

Practically indestructible, fully guaranteed, and any one is well worth its cost on one really frozen gear.

This set of special Buick Pullers removes all uncertainty as to amount of time required to remove any one or all three gears illustrated. They cannot possibly injure any gear.

SPECIAL GAR AGE TOOLS

MANKATO MINNESOTA

BUICK GEAR PULLER AND PUSHER SET COMPLETE

Buick Timing Gear Puller Buick Pump Shaft Gear Puller Buick Crank Shaft Gear Pusher Buick Pump Shaft and Timing Gear Pusher Buick Crank Shaft Gear Puller

These Special Buick Pullers and Pushers vividly illustrated here require little explanation. They properly handle the work with no injury to parts in least possible time, meaning more profit and complete satisfaction.

BUICK TIMING GEAR PULLER

Handles timing gear (or cam gear) on all Buick 8's.

Price..... **\$3.95**

BUICK PUMP SHAFT GEAR PULLER

Is complete with two sets of jaws and retaining sleeves (illustration above shows only one set). These jaws completely surround the gear and the retaining sleeve makes it impossible for jaws to disengage while pulling.

The No. 1 jaws and retaining sleeve used on Models 8-50 and 8-60.

No. 2 jaws and retaining sleeve used on Model 8-80. Pulling block and screw is universal. To pull pump shaft gear, first remove timing gear.

Price, Complete (with 2 sets of jaws)..... **\$6.25**

BUICK CRANK SHAFT GEAR PUSHER

The inner end of forcing screw is tapped to be screwed on end of crank shaft.

Price..... **\$2.75**

BUICK PUMP SHAFT AND TIMING GEAR PUSHER

This tool handles both jobs indicated by its name. Works on all models.

Price..... **\$1.95**

BUICK CRANK SHAFT GEAR PULLER

Is used with cap screws which screw into places tapped into gear.

Price..... **\$2.95**

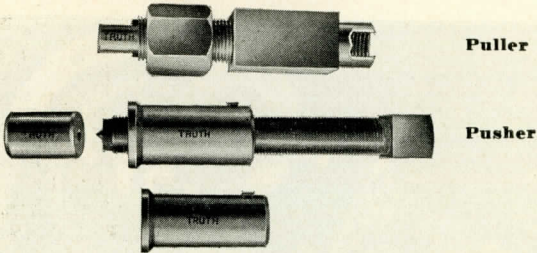

SET BUICK GEAR PULLERS AND PUSHERS

(5 tools complete—in fiber box)..... **\$17.85**

This catalog supersedes all previous issues. 37

TRUTH TOOL COMPANY
 MANKATO MINNESOTA

BUICK UNIVERSAL JOINT PULLER AND PUSHER

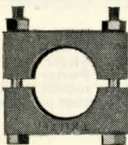

These tools handle universal joints on all model Buicks doing the job quickly and properly. Complete instructions regarding operation shipped with each set.

NEEDED WHEN {
 Putting in new transmission end plates.
 Putting in new transmission rear bearing.
 Putting in new universal joint.
 Putting in new transmission main shaft.
 Putting in speedometer drive worm.

Buick Universal Joint Puller and Pusher Set.....\$5.00

BUICK 6 TIMING GEAR PULLER ATTACHMENT

Handles '29 and older models.

This attachment is to be clamped on hub of cam gear and used with any two jaw gear puller.

Price \$2.25

BUICK 6 TIMING GEAR PUSHER

Handles '29 and older models.

The inner end of forcing screw on tool has female thread. Place this on threaded end of cam shaft. Barrel of tool will force cam gear on shaft as forcing nut is tightened.

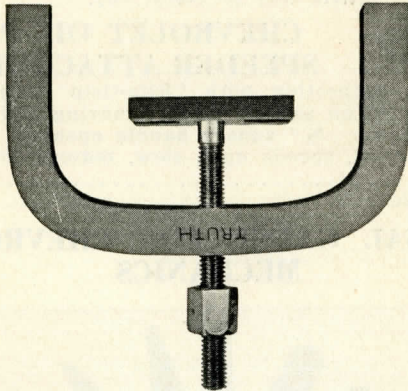

To avoid noise of timing gears they should be forced on tight. Avoiding the complaint of one customer is worth cost of this item.

Price \$2.75

SPECIAL GARAGE TOOLS
 MANKATO MINNESOTA

**CHEVROLET FAN PULLEY PULLER AND
CHRYSLER IMPULSE NEUTRALIZER
PULLER**

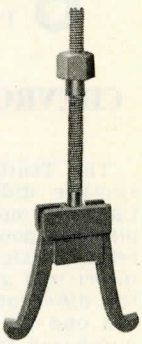

The name of this tool sufficiently describes the jobs it handles. The extra length screw is tempered as is the block and the two cap screws. The cap screws are held in place with lock nuts. The above tool can be used to pull Buick Crank Shaft Gears and many other gears which are equipped with cap screw holes.

Price\$3.95

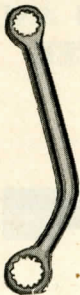

**CHEVROLET CAR AND TRUCK AXLE
HOUSING BEARING PULLER**

This tool is designed to fit either our old model Drive Shaft and Axle Puller which many Chevrolet shops now have or the new model Heavy Duty Drive Shaft and Axle Puller which is shown on page 20. The screw and spreading block, which is pictured between the jaws of the puller, are first inserted into the axle hole. The block and jaws are then slipped down over the screw. After the jaws are through the bearing they can be spread in place by pulling the screw back so that the spreader block comes between the jaws. When pulling car bearings the block is pulled between the jaws the narrow way. When pulling truck bearings the block is pulled back between the jaws so that the jaws rest in the milled slots. This puller will remove the bearings whether they are broken or not. After the tool is in place attach the Drive Shaft and Axle Puller and pull out bearings.

Tool complete as shown in picture.....\$4.00

Special Chevrolet Set, consists of Heavy Duty Drive Shaft and Axle Puller with 7 burrs and the Chevrolet Car and Truck Axle Housing Bearing Puller shown above 14.50

**CHEVROLET SIX STARTER
 AND UNIVERSAL JOINT

SPECIAL GARAGE TOOLS
 MANKATO MINNESOTA

**CHEVROLET UNIVERSAL JOINT
WRENCH**

$\frac{1}{2}$ " x $\frac{9}{16}$ "

This small double end offset wrench is the one handiest size wrench made. Because of its shape it is a favorite everywhere. Also handles Studebaker and Plymouth manifold nuts, etc.

Price\$1.00

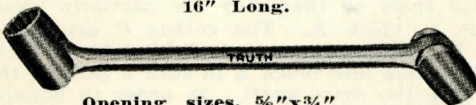

**HEAVY DUTY SOCKETS FOR
CHEVROLET AXLE NUTS**

These Heavy Duty Sockets are pictured on page 10 of this catalog. The $1\frac{1}{16}$ " size for 1934 Chevrolet car is one of our "Strait-Wal" Sockets as shown on page 4. This size has a $\frac{1}{2}$ " square handle opening. The 2" Socket and $1\frac{3}{16}$ " Socket have $\frac{3}{4}$ " square handle openings.

- 2" for 1934 Chevrolet truck.....\$2.95
- $1\frac{3}{16}$ " for 1933 Chevrolet car..... .85
- $1\frac{1}{16}$ " for 1934 Chevrolet car..... .70

**CHEVROLET FLEX MAIN BEARING
WRENCH**

16" Long.

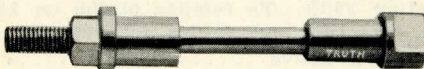

Opening sizes, $\frac{5}{8}$ " x $\frac{3}{4}$ "

This is the handiest main bearing wrench made. The sockets are fully flexible on each end and this wrench can be used on bumper bracket bolts, head bolts and many other places on various cars.

Price\$2.75

**CHEVROLET 6 SPINDLE BUSHING
PULLER AND REPLACER**

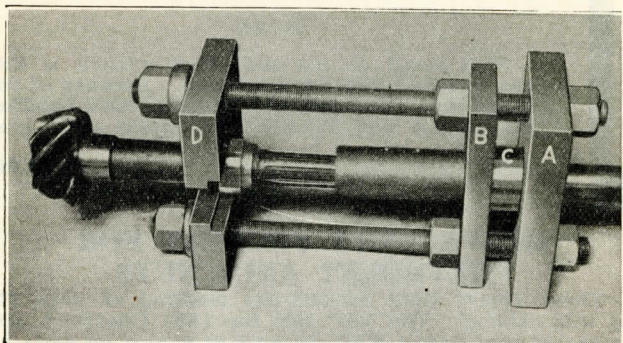

This tool not only removes the bushing but replaces the new one without burring.

Price\$1.75

All prices quoted are net to the trade. 43

CHEVROLET STUB PINION SHAFT REMOVER AND REPLACER

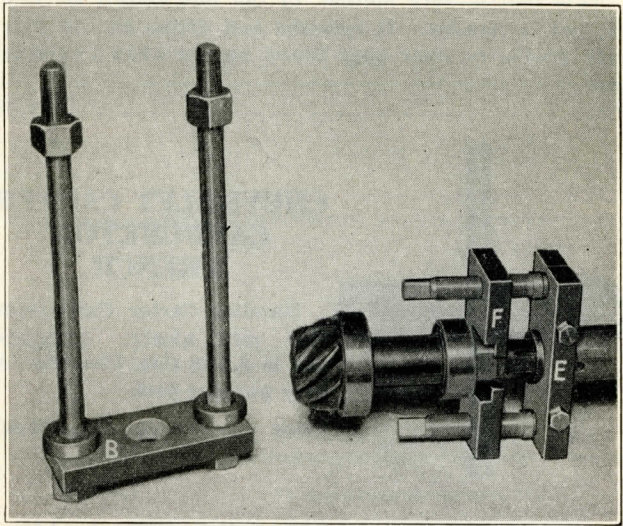

The above picture shows the Chevrolet Stub Pinion Shaft Remover and Replacer pushing the stub pinion into connection sleeve. In order to remove the stub shaft from the sleeve, the position of block D is reversed and the power nuts and roller bearings are placed inside the block. To properly operate the tool, block A is placed in approximately the correct position and the split gripping collets C are placed in position on the drive shaft so that they are partially inserted in the hole in block A. The collets C are made on a taper. By turning down nuts behind block B, the collets are pushed into block A in such a fashion that they solidly grip the drive shaft. In order to handle truck drive shafts, extra split collets are needed as well as one extra block similar to block D but with a larger milled opening.

An extra driver is also made to go with the above tool at a separate price of \$1.00. This driver can be used to remove any broken portion of drive shaft that should remain in sleeve. The tool as shown in the above picture will handle all Chevrolet 6 cars up to and including 1933. To remove pinion on 1934 Model Chevrolet, use the tool shown on opposite page.

Price, as shown above	\$17.95
Price, with attachments for truck as well as car..	22.95
Extra Driver as mentioned	1.00

SPECIAL GARAGE TOOLS
 MANKATO MINNESOTA

**CHEVROLET STUB PINION SHAFT
 REMOVER AND REPLACER ON
 1934 CAR**

The cut above shows the Truth Tool for removing stub pinion shaft on the 1934 Chevrolet car. The complete tool for removing the stub shaft is shown in operation and consists of blocks F and E with the two pulling screws. In order to push the stub shaft back into the drive shaft, block B and the two long screws and roller bearings must be used. This block, the two screws, etc., are also used with the tool shown on page 44; therefore, if that tool is purchased, you need only purchase the 1934 Chevrolet Stub Pinion Shaft Remover and Replacer which is shown in operation above.

- 1934 Chevrolet Stub Pinion Shaft Remover and Replacer, with blocks F and E and two pulling screws **\$8.50**
- Complete tool for 1934 Chevrolet car consisting of all parts shown in above picture **16.50**
- Complete Set, including all parts pictured on pages 44 and 45 **30.00**

Set, price	2.45

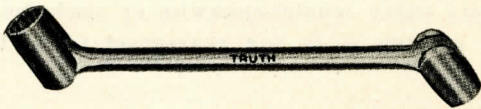

V-8 SHOCK ABSORBER ADJUSTER

This small tool handles all adjustment screws on A, B and V-8 shock absorbers.

Price

\$0.50

FORD MAIN BEARING AND HEAD BOLT WRENCH

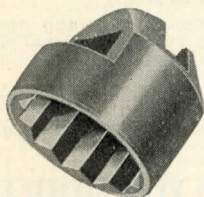

Truth Flexible Main Bearing Wrenches are the handiest Main Bearing Wrenches made because they can be set at any angle. This special Flex Wrench for V-8 is 15" long, has a $\frac{11}{16}$ " Flex Socket for head bolt nuts and a $\frac{3}{4}$ " Flex Socket for main bearing nuts.

Price	\$2.75
13/16"x $\frac{7}{8}$ ". Special	3.00

SPECIAL GAR AGE TOOLS

MANKATO MINNESOTA

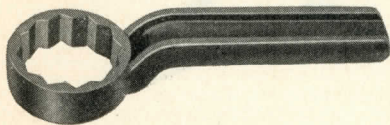

A AND B FAN PULLEY SOCKET

This special socket handles all Models A and B cars and will also fit those V-8 models which have a deep cast-iron fan pulley. Place socket on fan pulley nut, insert crank through the crank bracket and into the slots cut in socket.

Price \$1.25

V-8 FAN PULLEY WRENCH

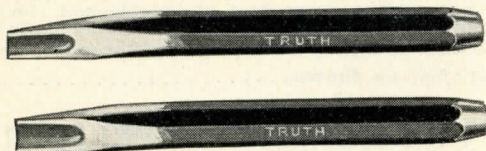

This tool fits the fan pulley nuts on all V-8 Ford models with the shallow pressed steel fan pulley. Place wrench in position on fan pulley

nuts so that the handle stands above the lower radiator hose connection. Step on starter which will cause wrench to strike member and bring fan pulley nut loose.

Price \$1.50

FORD HUB BOLT SET PUNCHES

This tool represents a departure from the conventional type of hub bolt set punch and does the job more neatly and in less time. A great timesaver and a tool that stands the gaff.

Car Size Punch \$0.95
 Truck Size Punch 1.00

A regular service at your service.

MANKATO MINNESOTA

FORD BRAKE DRUM PULLER

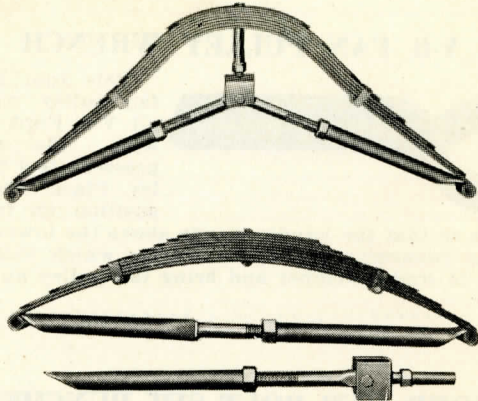

Fits all cars and trucks since Model T

We recommend Wheel Hub Puller No. AT-55 and the wrench No. AT-118, both shown on page 18 of this catalog. These pullers are drop forged and are correctly made to give service.

Wheel Puller No. AT-55\$7.50

Wheel Puller No. AT-55 with No. AT-118 Wrench. 9.00

TRUTH SPRING SPREADERS FOR MODEL A FORDS

The tools shown in the above cuts spread front and rear springs on all Model A and B cars. They will give good service and save a great deal of trouble and time.

Price, Model A and B Rear Spring Spreader, only \$10.50

Price, Model A and B Front Spring Spreader, only 5.75

Complete Set as shown..... 11.50

V-8 REAR SPRING SPREADER

We recommend the above tool for Ford V-8 cars.

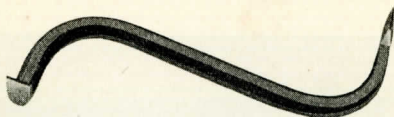

Price\$6.00

Complete Set, all tools shown in the above three

cuts \$17.50

SPECIAL GAR  **AGE TOOLS**
MANKATO **MINNESOTA**

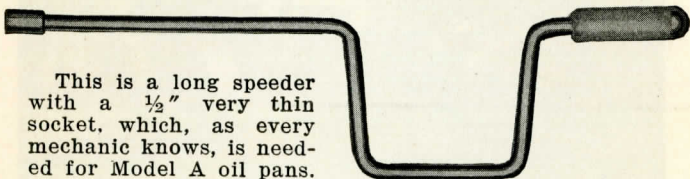

**V-8 STEERING SECTOR ECCENTRIC
 SCREW ADJUSTER**

This tool is used on all model Ford cars. This adjustment rivet will be found on the lower outside of the steering sector and is very hard to reach.

Price **\$1.00**

FORD OIL PAN SPEEDER

This is a long speeder with a $\frac{1}{2}$ " very thin socket, which, as every mechanic knows, is needed for Model A oil pans.

This is also an exceptionally fine tool for Chrysler oil pans.

Price **\$1.50**

V-8 LAMP BRACKET WRENCH

This tool properly handles lamp bracket nuts on all V-8 cars.

Price **\$1.75**

MODEL A AND AA BRAKE WRENCH

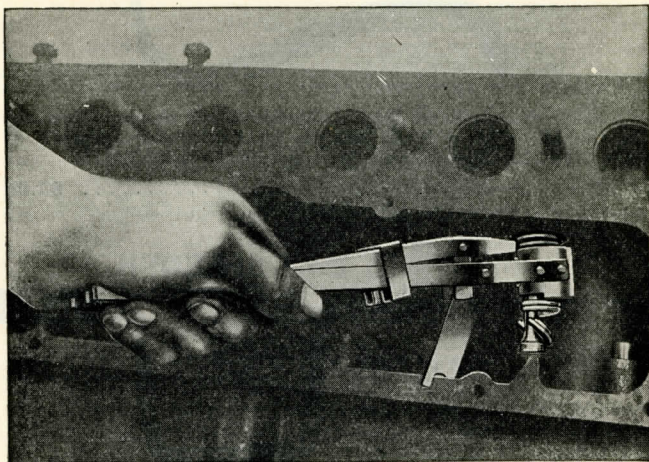

A very durable wrench for adjusting brakes on Ford cars and trucks. Car size opening is square; truck 8 point.

Price **\$1.50**

MANKATO MINNESOTA
AAB'S REAMER DATA

Use this chart in ordering reamers. Extra length reamers on page 35 handle king pin fitting work while the shorter reamers are for wrist pin fitting. We recommend the longer reamers because in many cases they can be used to fit king pins and wrist pins on the same car model which saves the cost of one extra reamer.
